CsF in Organic Synthesis. The First and Convenient Synthesis of Enantiopure Bisoprolol by Use of Glycidyl Nosylate.

— The regioselective substitution of glycidyl nosylate (II) with phenols (I) is catalyzed by CsF. Enantiopure bisoprolol (VI) is prepared for the first time starting from (IV). — (KITAORI, K.; FURUKAWA, Y.; YOSHIMOTO, H.; OTERA, J.; *Tetrahedron Lett.* 39 (1998) 20, 3173-3176; Res.
