

Adverse reactions with trimethoprim-sulfamethoxazole (co-trimoxazole)

- Allergic vasculitis with arthritis due to Bactrim allergy. Frieb, G. et al. *Munchener Medizinische Wochenschrift* 119: 959 (1977)
- Acute polyneuropathy possibly associated with co-trimoxazole. Vincent, F.M. *Lancet* 2: 980 (1977)
- Adverse reactions to co-trimoxazole in hospitalized medical patients. Lawson, D.H. and Jick, H. *American Journal of the Medical Sciences* 275: 53 (1978)
- Co-trimoxazole fatality. Thorpe, J.A.C. et al. *Lancet* 1: 276 (1978)
- Co-trimoxazole and creatinine clearance. Tasker, P.R.W. et al. *Lancet* 1: 711 (1978)
- Fatal multisystem toxicity after co-trimoxazole. Bræckner, J. et al. *Lancet* 1: 831 (1978)
- Co-trimoxazole and Stevens-Johnson syndrome. Bernstein, L.S. et al. *Lancet* 1: 988 (1978)
- Hepatic injury in a child caused by trimethoprim-sulfamethoxazole. Stevenson, D.K. et al. *Pediatrics* 61: 864 (1978)
- Fixed drug eruption owing to sulfamethoxazole. Verbov, J. *Archives of Dermatology* 114: 963 (1978)
- Trimethoprim-sulphamethoxazole and thrombocytopenia. Dickson, H.G. *Medical Journal of Australia* 2: 5 (1978)
- Co-trimoxazole. Collins, I.S. *Medical Journal of Australia* 2: 26 (1978)
- Acute pancytopenia due to megaloblastic arrest in association with co-trimoxazole. Blackwell, E.A. et al. *Medical Journal of Australia* 2: 38 (1978)
- Sulphamethoxazole, hypoalbuminaemia, crystalluria, and renal failure. Buchanan, N. *British Medical Journal* 2: 172 (1978)
- Sulpha-trimethoprim combinations and male fertility. Murdia, A. et al. *Lancet* 2: 375 (1978)
- Stevens-Johnson syndrome due to co-trimoxazole. Kikuchi, S. et al. *Lancet* 2: 580 (1978)
- Multisystem toxicity after co-trimoxazole. Finlayson, W.B. et al. *Lancet* 2: 682 (1978)
- Benign cutaneous vasculitis during treatment with trimethoprim-sulphamethoxazole. Coquin, Y. et al. *Nouvelle Presse Medicale* 7: 3145 (1978)
- Pancytopenia developing during treatment with sulphamethoxazole-trimethoprim. Casthelat, J. et al. *Nouvelle Presse Medicale* 7: 3148 (1978)
- Acute thrombocytopaenia during treatment with sulfamethoxazole-trimethoprim. Bosset, J.F. et al. *Nouvelle Presse Medicale* 7: 3778 (1978)
- Chronic prostatic melioidosis treated with trimethoprim-sulfamethoxazole. Morrison, R.E. et al. *Journal of the American Medical Association* 241: 500 (1979)
- Co-trimoxazole nephrotoxicity. Richmond, J.M. et al. *Lancet* 1: 493 (1979)
- Recurrent acute renal failure due to antibiotic-induced interstitial nephritis. Saltissi, D. et al. *British Medical Journal* 1: 1182 (1979)
- Severe erythema multiforme complicated by fatal gastro-intestinal involvement following co-trimoxazole therapy. Beck, M. et al. *Clinical and Experimental Dermatology* 4: 201 (1979)
- Trimethoprim/sulphamethoxazole. Adverse Drug Reactions Advisory Committee. *Medical Journal of Australia* 2: 92 (1979)
- Co-trimoxazole — too toxic for minor infections? *Drug and Therapeutics Bulletin* 17: 66 (1979)
- Marrow toxicity of a combination of thiamphenicol and trimethoprim-sulphamethoxazole. Reykelnyck, J.Ph. et al. *Nouvelle Presse Medicale* 8: 3829 (1979)
- Prevention of pneumocystis pneumonia: use of continuous sulfamethoxazole-trimethoprim therapy. Harris, R.E. et al. *American Journal of Diseases of Children* 134: 35 (1980)
- Acute immunoallergic thrombocytopenia due to sulphamethoxazole-trimethoprim. Nenci, G.G. et al. *Nouvelle Presse Medicale* 9: 532 (1980)
- Adverse reactions to sulfamethoxazole trimethoprim preparations. *Japan Medical Gazette* 17: 11 (1980)
- Cholestatic jaundice due to co-trimoxazole. Ogilvie, A.L. et al. *Postgraduate Medical Journal* 56: 202 (1980)
- Trimethoprim-sulfamethoxazole-induced intrahepatic cholestasis. Nair, S.S. et al. *Annals of Internal Medicine* 92: 511 (1980)
- Acute hepatitis caused by sulfamethoxazole-trimethoprim. Stewart, D.L. et al. *Gastroenterology* 78: 1323 (1980)
- Acute megaloblastosis due to cotrimoxazole. Chan, M.K. et al. *British Journal of Clinical Practice* 34: 187 (1980)
- Interstitial nephritis caused by trimethoprim-sulfamethoxazole in renal transplant recipients. Smith, E.J. et al. *Journal of the American Medical Association* 244: 360 (1980)
