Oxidation of Benzylic Alcohols with Iodine and Lithium Carbonate in Ionic

Liquid. — A simple and effective transition metal-free method for the oxidation of benzylic alcohols to the corresponding aldehydes and ketones is presented. — (LEE, S. B.; LEE*, J. C.; Bull. Korean Chem. Soc. 30 (2009) 12, 3107-3108; Dep. Chem., Chung-Ang Univ., Seoul 156-756, S. Korea; Eng.) — H. Toeppel
