A Prospective Randomized Trial to Compare the Efficacy of Tramazoline and Cocaine for Nasal Vasoconstriction before Nasal Surgery

J.-X. Zhang; Z.-Y. Li; L. Zhao; G. Li; G.-L. Cao; C.-Y. Zhang

J.-X. Zhang, Z.-Y. Li, L. Zhao, G. Li, G.-L. Cao, C.-Y. Zhang are retracting their paper, entitled A Prospective Randomized Trial to Compare the Efficacy of Tramazoline and Cocaine for Nasal Vasoconstriction before Nasal Surgery [Drug Res 2014, epub ahead of print. September 4, 2014], claiming lack of diligence in their research after other studies had consistently contradicted their findings.
